Tear-away Backing

Tear-away backing is the most popular stabilizer for most embroiderers using table fabrics. It should be used with caution on exceptionally delicate or stretchy fabrics. Tear-away backing makes removing excess stabilizer faster and safer than cut-away backing.

100% Fiber / High Quality / Eco-friendly

- For most stable and non-delicate fabrics
- Quick and easy to remove
- Eliminates risk of cutting a garment with scissors
- Tears easily and cleanly in both directions
- Provides excellent hoop stability
- Will not perforate during the stitching process

Cut-away Backing

Cut-away backing is generally used for delicate and stretchy fabrics to provide maximum stability and helps retain the design's shape after repeated washing. Cut-away backing makes cutting easy and prevents fabric from being forced down the throat plate.

100% Fiber / High Quality / Eco-friendly

- Good for delicate and stretchy fabrics
- Stability during and after embroidery
- Retains design's shape after repeated washings
- Easy to cut and resist perforations
- Machine-washable and dry-cleanable (low shrinkage)
- Provides excellent hoop stability

Apparel Measurement Guide

1 - WIDTH

The garment width is measured below the armhole straight across from edge to edge.

2 - LENGTH

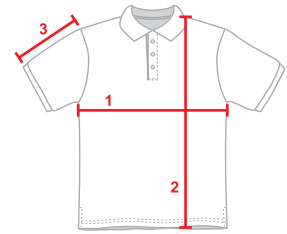

The garment length is measured from the highest point of the shoulder to the bottom of the garment.

3 - SLEEVE

The sleeve is measured from the highest point of the shoulder seam to the bottom of the sleeve.

CHEST/BUST MEASUREMENT

To help determine size for ordering, measure around the fullest part of the chest/bust under the arms.
